# S.R. 53 Corridor Improvement

- **Purpose of Project**
- Extend the life of the existing pavement to the year 2021 (10-year design)
- Improve intersection capacity to accommodate projected 2021 traffic volumes
  
- Intersections being improved include:
  - 113th Avenue
  - 109th Avenue
  - 101<sup>st</sup> Avenue
  - Summit Street
  - 93<sup>rd</sup> Avenue
  
- Design year traffic projected using regional growth percentage
- Impact of the 109th Avenue interchange is considered in the design
- Pavement rehabilitation will include:
  - Milling
  - 4-5" resurface
  - New 4-foot shoulders
  - Curb on side streets

# SR 53 Corridor Improvement

- **Construction Phasing**

- Phase 1:
  - Widening of west side of S.R. 53 and all west street approaches (including 101st Avenue closure)
- Phase 2:
  - Widening of east side of S.R. 53 and all east street approaches
- Phase 3:
  - 93rd Avenue Improvements

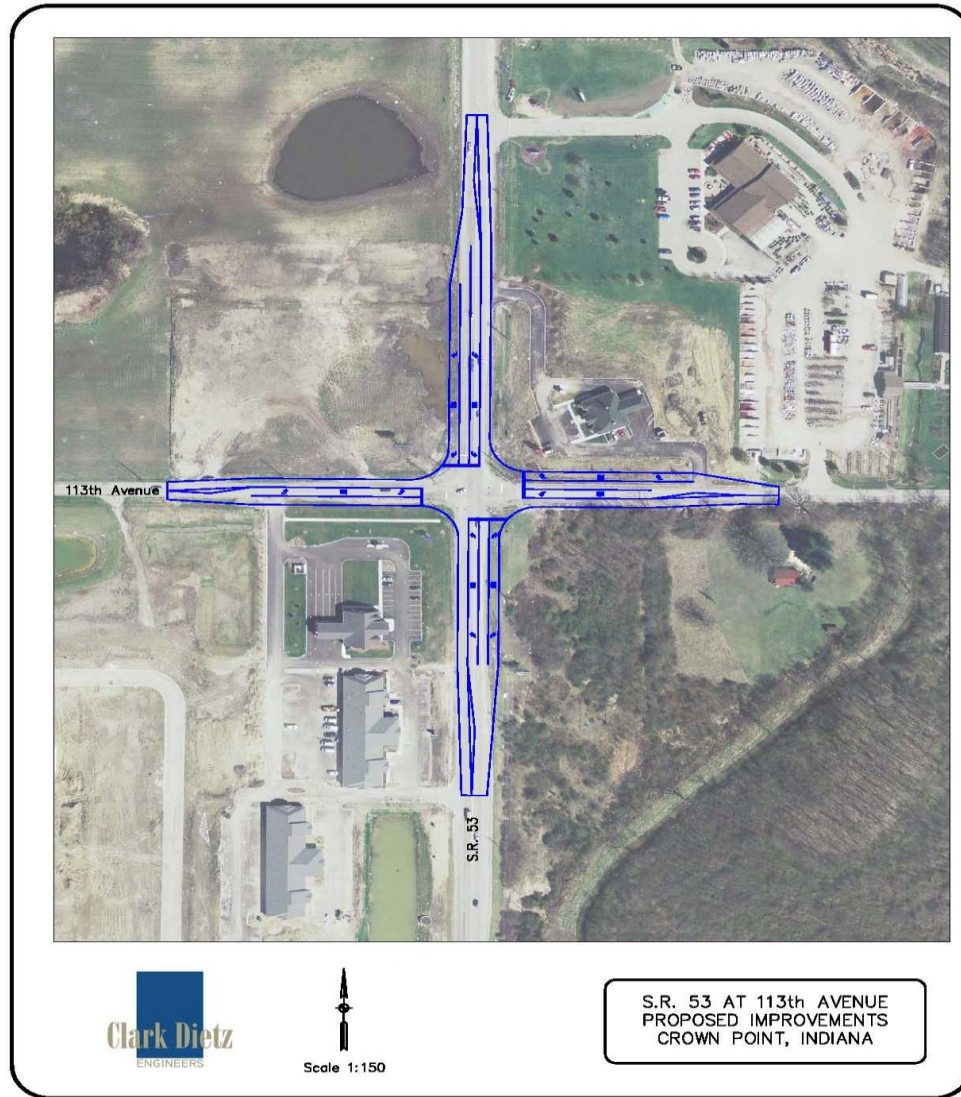

- **Cost: 6.07 million**

- **Schedule**

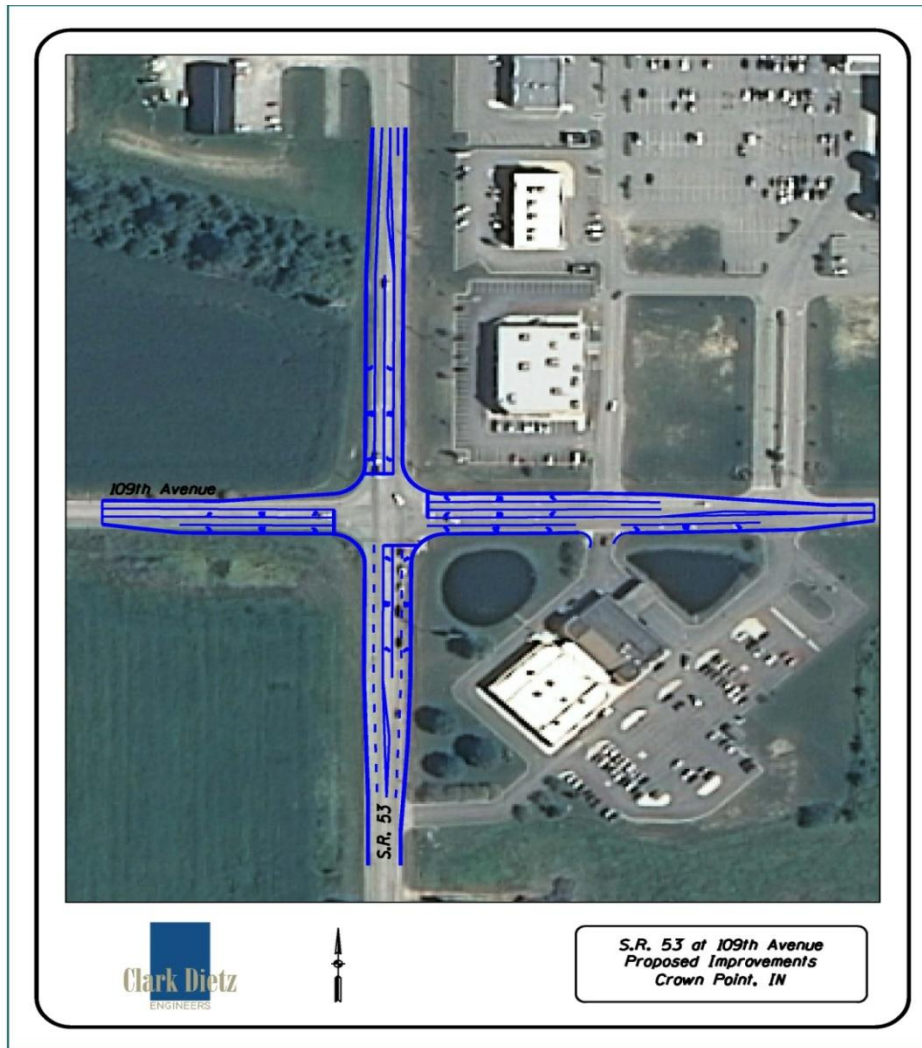

- Utility Relocation
  - December, 2010 – May 2011
- Construction
  - April 2011 – November 2011
